---

## PROFILE

Self-motivated and hardworking web development graduate with a passion for learning and technology. I enjoy many aspects of web development and am looking for a role where I can continue to learn and further my skills.

## PERSONAL PROJECTS

### **Stats Map – React/Netlify**

- An application designed to easily find statistics about a country/city by clicking it on a map
  - Used APIs including Google Maps and Open Weather to find data based on location
- <https://stats-map.netlify.com/>

### **Humbie Helper – HTML, CSS, PHP, MySQL, Bootstrap 4**

- Worked as part of a team to complete an application to help students stay organized
  - Used PDO to store and retrieve information from a MySQL database that I helped design
  - Built an announcements tool, motivational quotes feature and a file management system
- <https://humbiehelper.skriptkaiju.com/>

### **Restaurant Website – HTML CSS, JavaScript and jQuery**

- Used JavaScript and jQuery to make a responsive website as part of a team
  - Designed gift cards in Photoshop, designed and built the gift card and site map pages
- [ryerob.com/restaurant/](http://ryerob.com/restaurant/)

## Technology

- HTML 5, CSS 3, JavaScript
- jQuery, React.js
- PHP
- Oracle SQL, MySQL
- Bootstrap, Materialize
- Photoshop, Adobe XD

## Skills

- Wireframing
- Customer Experience
- Responsive and Accessible Design
- Personas
- Prototyping
- Testing (Usability, TDD)

## EDUCATION
